

## TEA AT TRANSWAYS - 2013

For the past 20 years, the Cancer Council has championed Australia's Biggest Morning Tea to help raise funds in the name of Cancer to help research and support to families who have been affected by Cancer. The Cancer Council provides money for Research, Regional Programs, Health Advocacy and Prevention, Cancer Information and Support Services to Australians every day.

With so many people affected by Cancer it was a great cause to help raise funds for, so the date was set for Friday 31<sup>st</sup> of May for TEA AT TRANSWAYS!

Julie Ouston in Brisbane, Nola Neve in Sydney, Lauren Mackay in Melbourne and Nicole Couper in Fremantle helped champion the cause by being the nominated organisers within each branch. Their role was to collect funds and ensure enough food for the masses!

On the morning of our Tea At Transways, office staff downed tools, got the kettle on and came together to enjoy Australia's Biggest Morning Tea. The food was delicious, the tea and coffee hot and the staff more than happy to take a break for a good cause.

Our fundraising efforts are to be commended as we are a relatively small company in manpower and had only put a \$500 goal forward. When the email went out, the response was more than positive. Especially so with Amen Lee kindly donating a cheque of \$200 immediately and he didn't stop there, with a further \$50 donation on the day Amen was our largest individual contributor to our fundraising efforts.

It didn't take much more for the branches to pool together and raise our quota. It is a very positive effort and thanks a plenty to our staff whose contributions helped reach our goal and beyond.

**The final total raised and banked on the day was \$586!!!**

You can see our total on the Cancer Council fundraising site <http://wa.cancercouncilfundraising.org.au/Transways>

THANK YOU to all of our wonderful staff, your donations will go a long way towards helping the Cancer Council in reaching their target this year of \$13million.

Let's set the bar even higher next year and see if we keep the momentum going, after all Cancer Changes Lives and we can help to make it a positive change!
